SCOTT'S SUB-TREASURY. The new book of lectures, Scott on the subject of the sub-treasury plan as endorsed in the platform of the people's party at Cincinnati, is a complete and wonder-fully clear and comprehensive statement and argument. It is certain to become the standard work on that subject. forth no speaker or editor can afford to dis-cuss this question without first giving this book a careful perusal. Mr. Scott is the best qualified man in the states to present this subject. He has studied it in all its phases, and he writes honestly, calmly, graphically and convincingly. It is a book for the multitude as well as for the phil-osopher; it is a book that everyone should read; no one can afford not to read it. The fact that as its pages went to press they passed under the eagle eye of J. C. Hubbard adds immensely to its value and will place its atter reliability as to facts and figures absolutely beyond a question. It is the most valuable book of the decade. Well printed on good paper, over one hundred pages; also diagrams showing how to mild, etc. Price 25 cents; address G. H Flintham, general agent. Topeka, Kas.
